The Yacht *Market Overview*

The yacht market continues to demonstrate its resilience and growth, with notable activity in sales, charter, and marketing development since our last update in Autumn 2024. As we move into Spring and Summer 2025, we are excited to share the latest developments across these key areas.

Our Sales Team has made significant strides over the last number of months with a record number of sales in 2024. Most notably, the team has made two exceptional in-house sales, with the sale of the 212ft Schooner **ATLANTIC** and the 100ft Wallycentro **MAGIC CARPET 3**. Other notable sales include the Truly Classic 90 **ATALANTE**, the the Carbon Ocean 82 **AEGIR**.

Our fleet has also been bolstered with several new listings. Among the new additions is the iconic 131ft J-Class Classic Sailing Yacht **RAINBOW**, a modern replica of the famous 1934 J Class. Other new listings include the following motor yachts: the 124ft Cantiere Navale Nicolini **CHEETAH MOON** and the Leopard 27 **NOTORIOUS**; sailing yachts such as the 123ft schooner **ALTHEA**, the Swan 108 **FANCY**, the Maxi Dolphin 100 **NOMAD IV**, and the 92ft Renaissance Yachts **WHITEFIN**; as well as the 82ft catamaran Multiplast **MAGIC CAT**.

Charter

2025 has already kicked off with exceptional momentum in the charter division, with **5%** increase on bookings compared to 2024 at the same period. Our fleet has expanded greatly since our last Episode, now totalling at **31 yachts** in our central agency – a new record set for BGYB!

We have welcomed 4 new sailing yachts: the iconic 212ft schooner **ATLANTIC**, which plans to go on a 4 Year World Tour with charter availabilities in remote destinations, the 123ft schooner **ALTHEA**, the 121ft Camper & Nicholsons **THANDEKA**. We have also seen the return of the 95ft Monty North **FREE AT LAST** to our charter fleet, following a complete refit over the last two years, as well as the recent return of the 82ft catamaran **MAGIC CAT**.

In December, our Charter Team attended the Antigua Charter Show, where we hosted a memorable day sail aboard the Alegria 67 Catamaran **SEMPER FIDELIS**, offering invited brokers a firsthand experience of what it's like to charter with us. Additionally, a couple of our charter brokers were invited on a familiarisation trip

aboard the iconic 99m motor yacht **CHRISTINA O** in Costa Rica, providing invaluable insights into this yacht's luxury charter experience.

Marketing and Development:

On the marketing front, we are continually enhancing operations to better serve our clients and improve efficiency. February saw the addition of a new Charter Broker and Assistant Manager to our Palma Office, strengthening our team as we continue to expand.

Internally, we are in the process of implementing a new CRM system designed to streamline client management and increase operational efficiency and our Marketing Manager has been working on refining our website to improve user experience. Additionally, as part of our efforts to evolve and strengthen our team, we participated in AI training, equipping us with tools to enhance workflow and customer service.

Looking ahead, we are excited to attend a number of boat shows including the MYBA Charter Show, with our Charter Team and the Palma Yacht Show with our Sales Team.

NOMAD IV is a fantastic sailing yacht, designed by the famous architects Finot Conq and built in Italy by Dolphin Yachts.

She is a part of a new concept of large sailing yachts, with a high freeboard, large beam and huge sail area allowing her unequalled sailing performances as well as huge spaces for the accommodation of guests. She is particularly comfortable thanks to her length and her similarly large interior and exterior spaces.

Her lateral ballasts mean she can sail almost flat and a lifting keel permits entry into a variety of ports and anchorages. Her large cockpit with 2 tables, each capable of seating up to 12, is ideal for relaxed dinners on board, and the ample sunbathing space permits owners and guests to soak up the rays in total comfort. Her deck saloon has stunning 360° panoramic views.

NEW CONSTRUCTION

Explorer Yachts

Freedom, Adventure, and
Ultimate Self-Sufficiency

Explorer yachts are capturing the imagination of a growing number of yacht owners and charter clients who are looking to go beyond traditional cruising grounds. These purpose-built vessels represent a new era of yachting, prioritising advanced engineering to allow autonomy and resilience for yacht owners and sailors.

These yachts are, above all, built for endurance and safety allowing cruising in the world's most remote regions. Their steel or aluminium hulls offer durability in rough seas and even icy waters, while full-displacement designs ensure stability and comfort. With long-range fuel tanks, redundant systems, and ample storage for provisions and gear, they're designed to operate independently for extended periods - making them ideal for off-the-grid cruising without sacrificing luxury. This growing trend is fuelled by a desire to escape the

crowded Mediterranean and Caribbean hotspots, and instead reconnect with nature, discover uncharted territories, and experience a sense of isolation and serenity rarely found elsewhere. Explorer yachts provide the perfect platform for this type of travel - offering adventure without compromising on safety, luxury, or comfort.

Today's explorer yachts are not only built for endurance, they also feature the latest in onboard technology, expansive living spaces, helipads, dive centres, and

fully equipped beach clubs - allowing owners and guests to enjoy complete freedom with all the luxuries of a superyacht lifestyle.

Several world-class shipyards have specialised in this niche segment, contributing to its rapid evolution and popularity. Among the most respected are Damen Yachting, known for their SeaXplorer series, Cantieri delle Marche, Sanlorenzo, Turquoise Yachts and Silver Yachts each bringing their own approach to combining capability with style.

Powered by nature - Keep it simple

BGYB represents YYachts in France

The YYachts shipyard is located on the Baltic Sea, almost directly on the water. Here we can manufacture yachts up to 35 metres in length.

The shipyard is equipped with modern and technologically advanced systems to guarantee efficiency and precision in production. At the same time, the structure is simple and straightforward to live up to the YYachts philosophy of "Keep it simple".

Their goal is to build sailing yachts that give you time for yourself as well as freedom and fun with your family and friends - a reliable investment in a better quality of life. We will treat you with the honesty and authenticity with which we produce our yachts. Our passion is to build sustainable sailing yachts that are ahead of their time, yet easy to sail and maintain.

Y8

With its construction, the Y8 has good potential for regatta victories. Since the mast has been placed further aft, the new Y8 carries a larger headsail, which provides better height in the wind. In the cockpit, guests enjoy a wonderful sailing atmosphere al fresco. The crew has a separate entrance here. With its soft edges and coachroof, and flooded with natural light, the Y8 has a relaxing atmosphere!

Due to its design, the Y8 can be sailed with a very small crew, making it an ideal family yacht.
