

162.5ft New Classic Schooner  
**ELEONORA**

Steel hull with teak superstructure, ELEONORA is an exact replica of the schooner Westward which was designed in 1910 by Nathanael Greene Herreshoff, the 'Wizard of Bristol', the designer of the America's Cup defenders which were undefeated throughout all six challenges from 1893 to 1920. Westward was arguably one of the most famous racing schooners in the world.

ELEONORA not only follows Westward's heritage of big schooners racing but also offers, with her comfort and space, unforgettable cruising and relaxation experiences.

She was built at the Van der Graaf shipyard in Holland and was launched in March 2000. Since then, she has successfully participated in a number of classic sailing

regattas and hosted a number of high-profile guests on board during her charter activities.

Showing astonishing beauty under her sail, ELEONORA's slender hull cuts a pathway through the sea, an elegant combination of beauty and power. Without sacrificing luxurious standards of comfort, her state-rooms and the entire interior display the ambience and elegance of another age.

**Best features:**

- Exact replica of Westward, one of the most famous racing schooners in the world
- Successful on the charter market and in classic sailing regattas
- Extremely well maintained: several refits between 2008 and 2019
- B.V. and MCA Compliant and Commercially Registered
